

GREENBOOK COMMITTEE

GREEN MATERIALS TASK FORCE

MINUTES

October 6, 2009

Chairman Don Vivant called the meeting to order. The meeting was held in a conference room at:

The Gas Company's Energy Resource Center (ERC)
9240 Firestone Blvd
Downey, CA 90241

1. Self-introductions were made by the participants:

Joe Parker	NCPI (Co-Chair)
Kirk McDonald	Cal Portland
Steve Crandal	Prime Coatings Inc
Ken Barker	Sully Miller
James Emerson	Pavement Rec. Systems
Don Vivant	Sully Miller - Chair

2. Old Business –

A. – Group discussion continued regarding definitions and presentation options. After a review of the documents provided by Steve Crandal, the Task Force agreed to adopt a keep-it-simple, abbreviated definition. The Task Force also agreed that an appropriately placed preface would provide a more appropriate vehicle in which we could better discuss the general scope, essential details, and complex nature of Green Materials. Moreover, text boxes placed at the beginning of each section would provide specific and relevant details so to assist and caution users.

B. – Proposed Definition of a Green Product

Green Products are products that above the common practice are:
made with salvaged, recycled or agricultural waste, or
conserve natural resources, or
avoid toxic or other emissions, or
save energy or water, or
contribute to a safe and healthy environment

C. – Proposed Definition of Green Method

A Green Method is a specific construction process that produces the benefits of a green product.

D. – The Task Force agreed to press ahead and examine the next sections for identification of Green Products. The following volunteered to report at next meeting:

Kirk McDonald – Section 201 Concrete etc.
 Ken Barker – Section 203 Asphalt etc.

E. – APWA Sustainability Committee – No report.

3. The Task Force agreed to consider and continue these discussion items at the next meeting at this same location on November 5, 2009.

4. Meeting adjourned.
