

GREENBOOK COMMITTEE

GREEN MATERIALS TASK FORCE

MINUTES

May 4, 2010

Chairman Don Vivant called the meeting to order. The meeting was held in a conference room at:

Sully – Miller Contracting Co.
135 S. State College Blvd.
Brea, CA 92821

1. Self-introductions were made by the participants:

Joe Parker	NCPI (Co-Chair)
Steve Crandal	Prime Coatings Inc
Mike Serra	CEMEX
Greg Clayton	CEI/AGC
Don Vivant	Sully Miller - Chair

2. Old Business –

- A. Group discussion continued regarding definitions and presentation options. Specific discussion ensued about appropriateness and suitability of our continued use of the term – Green. After a reviewing all participant input, the group decided to continue using the term while continuing to search out alternative terminology. Since our usage is specific and defined within our specification, we may easily incorporate another more appropriate term should it arise.
- B. The committee reviewed the proposed introductory preface with changes, wherein we discuss general scope, essential details, and complex nature of Green Materials. The group suggested we hold over for final review at next meeting.
- C. The committee reviewed the proposed Section 201 – Concrete, et al, with suggested changes from the previous meeting. The committee agreed to forward this section and section 200 – Rock Materials to the Surface Ad-Hoc Committee for their review and comment.
- D. Don Vivant submitted section 202 – Masonry Materials and section 203 - Bituminous Materials for committee review. The committee then agreed to forward section 202 to the Surface - Ad-Hoc Committee and section 203 to the Surface - Asphalt Task group for their respective review and comment.

E. Greg Clayton volunteered to begin work on the next section, 204 – Lumber and Treatment with Preservatives.

3. The Task Force agreed to consider and continue these discussion items at the next meeting at Sully-Millers facilities in Brea at 1:00 pm on June 9, 2010.

4. Meeting adjourned.
