

GREENBOOK COMMITTEE

NEW MATERIALS AND METHODS SUBCOMMITTEE-SURFACE

CONCRETE AD HOC GROUP

MINUTES

JUNE 10, 2010

Chairman and Ken Sears called the meeting to order at 10:04 AM. The meeting was held in the conference room at:

Cal Portland CPC Materials Division
1030 W. Gladstone
Azusa, CA 91702

1. Self-introductions were made by the participants (from the sign-in sheet):

Art Bigelow	CTS Cement
Buddy Coover	County of Orange
Mike Costello	County of Orange
Rod Elderton	MWD
Rob Graine	Associated Ready Mix
Josh Hamilton	WR Grace
Gary Kirk	Cal Portland Cement
Pat Murena	Solomon Colors
Vince Perez	CTS Cement
Ken Sears	CSM Ready Mix
Don Vivant	Sully Miller

2. The minutes from the May 10, 2010 meeting were approved as distributed.

3. Old Business –

A. Aggregate Review –

- Change No. 218NS – The group agreed to proceed with this current proposal with no revisions and submit to the Surface Subcommittee. The Combined Grading wording will be submitted to the Main Committee for a Change Number.
- No new information was presented in regards to the “pump style” gradation proposals; however conversations did yield further questions on the Greenbook’s current notation of “P for Pumpable”, and whether it could be misinterpreted as through any style of pump. Ed and Rob continue to review this further, possibly with assistance from Griff.

B. Admixture Update –

The Group found no needed revisions necessary in the Hydration Stabilizer proposal and it will be submitted to the Main Committee for a Change Number.

C. High Early Strength Concrete –

- It is requested (once again) that the Group review both Draft 2 (specifically lines 39-59) and Draft 3 and send any and all comments to Ken P., Drew, Art, Vince and cc: Rod (for inclusion in the minutes).
- A sub-committee consisting of Mike S., Ken P., Kirk and Drew continue to work on section 201-1.2.1 Portland Cement; specifically section (c) and the exchanging of ASTM C928 with ASTM C1608, and a proposed revision of the Portland Cement heading in order to more easily accommodate the use of hydraulic cement.

D. Other Old Business –

- Adapting “Green” (defined as: environmental, renewable, and/or sustainable) into the Greenbook – No one in the Group has provided comments.

4. New Business-

- A. Don presented a CalTrans update that included a construction directive which will allow water addition at the job site as long as the maximum allowable is not exceeded.
- B. A precast conference on June 22 in Ontario will spotlight the I-15 repairs (including a field trip to the site).

5. Our next meeting will be held **Thursday, July 8, 2010, at 10:00 am**, same location.

6. Meeting adjourned at 10:45 AM.
