7. Old Business: None
8. New Business: Ms. Leslie Hager from Safety Step TD introduced the firm’s detectable warning surface products and wanted to know what is the process to incorporate the product in the standard specifications. Various members informed Ms. Hager that the Greenbook does not endorse proprietary products. The Greenbook does define the qualities of standard construction materials such as base materials, asphalt concrete, or Portland cement concrete. If the Greenbook does see merit in including a standard specification that clarifies information or updates older standards, a local agency would sponsor the proposed change. Ms. Hager was appreciative of the discussion.
9. General Discussion: None
