3. Approval of Minutes from May 19, 2020 meeting  
Minutes as corrected : Item 5: i Asphalt task force changed burn to burm.  
Remove super pave from 299.  
Approval for minutes Passed.
  
4. Chair's Report on Main Committee Meeting  
Revisions still in discussion, no contributions from main committee.

## 5. Task Force Report & Changes

### A. Geosynthetics Task Force (Vinh Tran): Revision out for review.

- i Get any comments from the review package to Sabah preferably by June 15<sup>th</sup> for compilation.
- ii Geosynthetic task force will be going dark and will reconvene if necessary once Editorial reviews the changes.

### B. Asphalt Task Force (Tom Williams): T: Met May 6<sup>th</sup> active working on 299 sits with surface will be discussed June 16<sup>th</sup>, updates will be provided by Surface. Submitted changes for 299SM, waiting for info, changes 300 and 301...original draft changes and comments were made, revisions will be discussed June 3<sup>rd</sup> via GOTOMEETING, once those are cleared, will be pushed to surfaces.

- i New items: designate a berm mix in green book D2. Discussion of use of ARHM, CIR revisions in works. 299 should have been submitted, but looks like it is in limbo, a simple change but not attached to this meeting. Bring it up with geosynthetic task force next month.
  - Change 299SM  
Status: Re-submitted
  - Change 300SM  
Status: Still with group
  - Change 301SM  
Status: Still with group

### C. Concrete Ad Hoc (Nathan Forrest). Edward: Section 201 regard to concrete, comments by Eric discussed and evaluated, more evaluation necessary.

- i New item assisting ability, evaluation/ consideration of agencies providing declarations for concrete mixes.
- ii 246 SM - ASR Testing: This change was pretty much complete but when we took one last look at it prior to transmitting, it was recognized that the ASTM standards for Fly Ash have recently changed and, as a result, this spec may also need to change. We've discussed it at our last 2 meetings, but the turnout was low last week so we didn't make progress on the technical aspects of it (we lacked the expertise at the meeting.)
  - Change 246SM Reactivity Testing  
Status: Still with group.
- iii 270 SM – Shrinkage Compensating Cement: Keegan's log shows this as being complete and sent to the New Materials and Methods - Surface Subcommittee back in January of 2017 but the log shows no further progress after that. Are there any updates as to what happened or what is happening with that?
- iv 272 SM – Rip Rap: We show this item as complete at the Ad Hoc committee and in-process at the main committee as of February. Perhaps there is an update on this on also?

v 285 SM – Permeable Aggregate Gradations: This is complete at the Ad Hoc committee and I believe it got dropped in the transition between Durand and I. Please find the change and transmittal attached.

- Change 285 section 200 Permeable Aggregate Gradations  
Status: No status updates

vi 286 SM – Concrete for Special Exposure: I believe we've reached agreement on the language for the change. We'll have another reading of the final version next month and then ballot before transmitting to the New Materials and Methods - Surface Subcommittee.

- Change 286SM Supplemental Cementitious Materials Status: still with Concrete Ad Hoc...still in discussion

vii 304 SM – Reorganizing Section 201: This is an ongoing item; we continue to work through the section each month making updates and improvements.

6. Old Business: None

7. New Business: Richard Patricelli announced that he was stepping down as the Greenbook Surface & Methods Subcommittee Chair. Vinh Tran will be the acting Surface & Methods Subcommittee Chair until his nomination has been accepted by the Main Greenbook Committee. Orange County Public Works will be providing the Main Greenbook Committee with a nomination letter for action.

8. General Discussion: Re-instating the Green Task Force for Greenbook...re-using materials, sustainability, recycling, etc.

i Surface chair raised this to Greenbook Main Committee at the last Main Greenbook Committee Meeting.

9. Adjourn 10:07 am

**Greenbook Committee of Public Works Standards, Inc.**  
**New Materials and Methods Subcommittee Surface**

---

10. Next Meeting at 9:30 AM on Tuesday, June 16, 2020 via GotoMeeting at the following link.
