II. Meeting minutes: January 2021 <http://www.greenbookspecs.org/minutes.asp>
Minutes were approved -

III. Announcements, Correspondence and Summary of GB meetings

a. Future Meetings on Microsoft Teams

BNI is working towards moving all the Greenbook meetings to MS Teams – the transition will begin with this Thursdays meeting and BNI will transition Sub Committees gradually. For now we will remain with GO TO MEETING –

We will use technology to our betterment. We will use a cloud server for documents rather than passing one around via email. WE need centralized document control and a cloud server will do that.

IV. Old Business:

a. Change No. 307UM Plastic Liners

Thought this was going to die in committee, After our meeting met with Editorial, the Chairman of Gb joined us and this specification will be in the 2021 Greenbook.

DF: thanks to all who were involved in this – GN it was the 11th hour, but we got there.

GN/DF learning experience and we will get Editorial involved in the process much sooner rather than later.

ACTION ITEM: GN will distribute via email the Plastic Liner specification

b. Change No. 284NU Part 5

There are 3 outstanding sections on Part 5. There will be 4 different standards in this Specification. Installation has its own section (General) and every other section will refer this General Section as needed, example, same grouting section for all.

Pipe Bursting Specification paperwork will be made digital DB will provide this to GN who will see to this.

c. Change No. 302 UM (UV CIPP)

The UV specification will be in the 2021 Greenbook.

V. New Business:

We will be moving to TEAMS – just bear with us as BNI transitions to that, it may take some time, but it will occur.

VI. Open Discussion:

NONE

Adjourned 11:40AM PST

VII. Next meeting: March 16, 2021

To attend via “GoToMeeting” and/or telephone:
