- IV. Old Business:
- a. Change No. 284NU Part 5
500-7.4.4 and 500-7.4.3 – 30 day hold for committee members to review
DB has a small presentation.
DF composite manhole covers,
KC Air test discussion
 - b. DB ppt presentation fold and form PVC, solid wall PVC, 3 manufacturers, Am Liner, Nupipe, Novapipe
GN: maintain 30 day hold on fold and form PVC pipe
- V. New Business:
- a. DF: we need to form a task force for the composite manhole covers, I have contacted manufacturers, we could meet 2nd Wednesday of the month. We still need an Agency to join the task force.
GN: is there any agency here that would like to join this task force?
DF: we do not use the composite manhole covers everywhere, however there is a need and a place for them to be used. DF: wrote spec that covers and follows the DOT rating, loading ASTM 206, covers loading, DOT H20/H25 loading and made in the USA. Need to set up a 3rd party method of testing and allow each manufacturer to do their testing thru 3rd party.
GN will ask for Agency involvement on Thursday's meeting
GN: PSI for air testing will be changed in an Eratta, any other edit needs a change order. KC: the whole spec needs to be re written, re worked to correct the dangers to the workers. GN to KC editorial will just make edits, any changes to 306.7.8 will need a change order

ACTION ITEMS: 30 day hold for Fold and Form continues
