II. **Announcements: HAPPY THANKSGIVING! REMEMBER WE ARE DARK IN DECEMBER! MERRY CHRISTMAS! HAPPY HOLIDAYS! JEAUX NOEL! HAPPY KWANZA! HAPPY HANUKKAH! AND A HAPPY NEW YEAR TO ALL!**

III. **DARK IN DECEMBER!**

Minutes are on line for review. Generally the discussion has continued on about the revisions of and to section 500.

UV spec is coming!

ADA representatives gave a wonderful tour and provided a great lunch! Thanks to all who attended and to those who made it possible!

IV. **Old Business:**

Revision of Section 500 – on going

All of the discuss centered on reorganizing the base structure of the Pipeline Rehabilitation section, and assigning task force captains to head each rehab category. It's shown better on the spreadsheet that Bryce set up for Dave, but here's the summary from my notes:

507 Pipe Lining Systems

507-1 General

507-2 Sliplining (Segmented) - to be led by LACSD

507-3 Pull-In-Place Thermoplastic (Continuous) - to be led by Bryce

507-4 Cured-In-Place Thermo-Set - potentially led by City of LA SD

507-5 Spiral Wound - to be led by LACPW

507-6 External Wrap/Encasement - to be led by LACSD

The general sentiment is to get things moving and have firm deliverables and milestones for each task force to keep progress on schedule
