B. Reinforced Concrete Box Task Force Report:

- i. **Change 177 NU – Pre-cast Reinforced Concrete Box.** No task force members in attendance. CG relayed that it has been reported to him good progress has been made. Ongoing. (County of Los Angeles)

C. Change 161 NU – Sample Thickness for Chemical Resistance Test.

RJ distributed suggested revisions to this Change. Discussion is continuing. (Jerry Ellison, formerly City of L.A.)

D. Change 185 NU – Machine Spiral Wound Polyvinyl Chloride (PVC) Pipe Liner.

WS asked that this Change be reviewed to see if it could be completed or a decision made whether to pass it on to an ad-hoc task force. Other subcommittee attendees, JE, MM, and TC indicated that a task force should be formed without any

further discussion. The task force would garner the “experts” necessary for a cogent review of this lining process. CG will contact Keith Hanks to discuss a Chairperson for the task force (Keith Hanks, City of L.A.)

V. New Business – None.

VI. Next Meeting: January 15, 2008 at 11:00 a.m.
