Mark Warner (MW)	Ameron International	(909) 472-2593	mwarner@ameron.com

Meeting minutes of November are approved:

Announcements:

- A. The GB committee adopted a new Change Form which is available on the GB website. The form requires identification of “sole source” or “patented” products.
- B. Teleconferencing was implemented at the last GB meeting and work well. Full funding has not yet been approved. Coordination of handling printed materials (scan or fax) has yet to be worked out.

II. Old Business:

A. Pipeline Rehab. Task Force Report:

- i. Change 52 NU – Service Connections. To be voted on Thursday, January 31, 2009 before the GB Committee for a vote. (Walt Shioji/Raja Abi-Hashim)
- B. **Change 161 NU – Sample Thickness for Chemical Resistance Test.** Still on “30-day” hold for review. Latest revision includes tabular format of the relationship between sample thickness and weight change rather than by using formulae since values of the former are consistent with criteria developed by P.C. Lin. (Jerry Ellison, formerly City of L.A.)

C. Reinforced Concrete Box Task Force Report:

- i. **Change 177 NU – Pre-cast Reinforced Concrete Box.** The latest (January 6, 2009) revisions were brought back for another round of review in this subcommittee. Placed on a 30-day hold for review. (County of Los Angeles)

D. Machine Spiral Wound Pipe Liner Task Force Report:

- i. **Change 185 NU – Machine Spiral Wound Polyvinyl Chloride (PVC) Pipe Liner.** Has been on “30-day” hold for review since November meeting. Reviewed again at this meeting with several minor comments which RJ will revise and bring back at the next meeting. (Keith Hanks, City of L.A.)

V. New Business – None.

VI. Next Meeting: February 17, 2009 at 11:00 a.m.

VII. Adjournment: 1:55 p.m.
