Russell Tripp (RT)	CA Precast Conc. Pipe Assoc.	(951) 220-7062	rtripp@concrete-pipe.org

II. Old Business:

A. Change 266NU Polypropylene Pipe: For review at Editorial Standards subcommittee.

B. Part 5 – Editorial Changes: DG offered praise for the current provisions in the SSPWC under 500-3 for annular space grouting. The subcommittee again recognized the need for a measurement and payment clause to be included, measurement to be in the typical units of cubic yards (CY). Additionally, provisions for ‘heat of hydration’ must be added to address proper grout curing. RP agreed to provide Sanitation District language on measurement and payment to DB which can be reviewed and discussed at an upcoming meeting. DG recommended reviewing and updating ASTM references and acceptable pipe sizes, noting that references to F1803 are correct, but references to F794 should be replaced with F1803.

It was suggested that moving “Segmented Liner Pipes”, presently included under 500-1.1.7 (b), to its own subsection would help the organization of Part 5.

C. New Business:

Curt Gilley handed out copies of a draft SECTION 307 – JACKING AND TUNNELING for review at the March meeting, and asked that it be reviewed. Any comments will be addressed at the ~~April~~ May 2015 NM&M – Underground meeting.

III. Adjourned: 12:50 p.m.

VI. Next meeting: May 19, 2015 at 11:00 a.m.

*Roger Kohlenberger, Secretary
Los Angeles County Department of Public Works
(626) 458-4964*
